## Another First

Over the summer we added another milestone to our longstanding relationship with Eagles Nest. We were congratulated by the owners, Daniel and Sandra Biskind, on placing the first ever clients into their flagship villa, Rahimoana. This villa has justifiably won a number of design awards and remains an absolutely spectacular platform for that very special occasion. Aply managed by ex-Solitaire Lodge manager Callum Farnell, this villa complements stunning views with breathtaking architecture and avant-garde interior design. The materials and fittings are all the best that money and very high standards could find.
